OBJECTIVE A position in the field of mathematics with special interests in bayesian statistics and its related programming applications.

EDUCATION

Bachelor of Science, Mathematical Engineering
Czech Technical University in Prague
Concentration: Statistics
Minor: Data Analysis
Finished: 2022

Master programme, Applied Mathematical Stochastic Methods
Czech Technical University in Prague
Concentration: Statistics
Minor: Data Analysis
Expected to finish: 2024

COMPUTER SKILLS

Languages & Software: MATLAB, Python, R, Latex, Github.
Operating Systems: Only experience with MS Windows.

EXPERIENCE

Research Work   2022-2023
Adaptive Systems Department, Institute of Information Theory and Automation
- Co-authored a paper introducing discounted fully probabilistic design.

LANGUAGE SKILLS English (both written and spoken).

SOFT SKILLS Attention to detail, work ethic, problem solving.
